Acknowledgments

Many persons participated in the diverse activities of the 1980 census. These acknowledgments generally reflect staff during the post-census data publication process. The Bureau was guided by then Director, **Bruce Chapman**, and Deputy Director, **C.L. Kincannon**. Primary direction of the data publication program was performed by **William P. Butz**, Associate Director for Demographic Fields, assisted by **Peter A. Bounpane**, Assistant Director for Demographic Censuses, in conjunction with **Barbara A. Bailar**, Associate Director for Statistical Standards and Methodology, **Howard N. Hamilton**, Acting Associate Director for Information Technology, **James D. Lincoln**, then Associate Director for Administration, and **Stanley D. Moore**, Associate Director for Field Operations. The Director's staff was assisted by **Sherry L. Courtland**. Direction of the census enumeration and early processing activities was provided by **Vincent P. Barabba**, former Director; **Daniel B. Levine**, former Deputy Director; and **George E. Hall**, former Associate Director.

Responsibility for the overall planning, coordinating, processing, and publication of the 1980 census was in the Decennial Census Division under the direction of **Stanley D. Matchett**, Chief, assisted by **Rachel F. Brown** and **Roger O. Lepage**, Assistant Division Chiefs. The following Branch Chiefs were responsible for support services: **Donald R. Dalzell, Stephen E. Goldman, Judith A. McKay, Dennis W. Stoudt**, and **Richard R. Warren**. The systems design and computer programs necessary for this report were prepared by **Valerie Gregg, Caroline Magill, George McLaughlin**, and **William Peil**.

Responsibility for the overall planning, coordinating, processing, and publication of the 1980 census Supplementary Questionnaire Program for American Indians was in the Population Division under **Nampeo R. McKenney**, Assistant Division Chief for Ethnic and Racial Statistics Programs, and **Patricia A. Berman**, former Chief, Racial Statistics Branch, under the general direction of **Roger A. Herriot**, Chief, **Paula J. Schneider**, Program Director, and **Meyer Zitter**, former Division Chief. **Karen A. Crook** and **Edna L. Paisano**, Racial Statistics Branch, had major responsibility for the development and implementation of various phases of the Program. Responsibility for developing the housing portion of the 1980 census supplementary questionnaire content and processing specifications and designing the tabulations was in the Housing Division under the direction of **Arthur F. Young**, Chief, and under the supervision of **William A. Downs**, Chief, Decennial Planning and Data Services Branch, assisted by **Imelda M. Hall**. Important contributions were made by **Sharron S. Baucom** and **Cynthia M. Taeuber**, Population Division, and **Carmina F. Young**, Housing Division.

This report was planned and its content developed in the Population Division by **Karen A. Crook** and **Gloria J. Porter** under the direction of **Patricia A. Berman**, former Chief, Racial Statistics Branch. Important contributions were made by **Edna L. Paisano**. Contributions also were made by **June H. Cowles** and **Deborah L. Burgess**. The work was under the general direction of **Nampeo McKenney**, Assistant Division Chief for Ethnic and Racial Statistics Programs. **William A. Downs**, Chief, Decennial Planning and Data Services Branch, assisted by **Imelda M. Hall** and **Sherry Pollock**, in Housing Division were responsible for the material on housing. Important contributions for the material on the indicated fields of specialization were made by the following persons: Education Statistics, **Rosalind R. Bruno**; Migration Statistics, **Celia G. Boertlein** and **Kristin A. Hansen**; Health and Poverty Statistics, **John M. McNeil** and **Thomas Gelinne**; Labor Force Statistics, **Thomas S. Scopp, Thomas J. Palumbo, John A. Priebe, Paula L. Vines**, and **Delana F. Kametani**; and Income Statistics, **George F. Patterson**.

A number of American Indian and Alaska Native governments and organizations, Federal agencies, researchers, and advisors contributed to the development of the questionnaire and content of the report.

Administration support was provided by the Administrative Services Division, **Robert L. Kirkland**, Chief, and **William C. Fanning**, Assistant Chief.

Computer processing was performed in the Computer Operations Division, **C. Thomas DiNenna**, Chief, **James E. Steed, George M. Bowden**, and **Joseph J. Sferrella**, Assistant Chiefs.

Questionnaire processing procedures were developed in the Decennial Processing Staff by **James S. Working**, then Chief, assisted by **Isabelle McCants** and **Judy Dawson**. The clerical coding and conversion of the questionnaires were performed in the Data Preparation Division, **Don L. Adams**, Chief; Jeffersonville Processing Office, **Robert L. Kirkland**, then Processing Manager, assisted by **Judy Petty, Norris Barringer, Carolyn Roseman, Leorda Houston**, and **Lauralie Nelson**.

User services were provided by the Data User Services Division under the supervision of **Michael G. Garland**, Chief, **Marshall L. Turner, Jr.**, and **Paul T. Zeisset**, Assistant Chiefs.

Data collection activities were supervised in the Field Division by **Lawrence T. Love**, Chief, under the direction of **Richard Bless, Charles Hancock**, and **George T. Reiner**, Assistant Chiefs, with the assistance of the directors and assistant directors of the Bureau's regional offices.

Geographic programs and plans were developed in the Geography Division under **Robert W. Marx**, Division Chief, **Donald I. Hirschfeld** and **Alice Winterfeld**, Branch Chiefs.

Publications editing, design, composition, and printing procurement were performed by the staff of the Publications Services Division, **Raymond J. Keaski**, Chief; **Milton S. Andersen, Arlene C. Duckett**, and **Gerald A. Mann**, Branch Chiefs.

The Statistical Methods Division was largely responsible for weighting the supplementary questionnaire data, producing estimates of sampling error and quality control of the data coding operations. This work was supervised by **Charles D. Jones**, Chief, and **Susan M. Miskura**, former Assistant Division Chief. Important contributions were made by **Henry F. Woltman, Thomas W. Harahush, Richard A. Griffin, Michael L. Mersch, Robert G. Edson, Milton C. Fan**, and **Janet St. Clair**.

The system design, technical specifications and assembly were the responsibility of the Technical Services Division, **C. Thomas DiNenna**, Acting Chief, and **Robert J. Varson**, Branch Chief.

Many other persons participated in the various activities of the 1980 census. For a list of key personnel, refer to the *History of the 1980 Census of Population and Housing*, (PHC80-R2).

SYMBOLS AND GEOGRAPHIC ABBREVIATIONS III
SUPPRESSION OF DATA FOR CONFIDENTIALITY IV

GENERAL

This report is part of the *Subject Reports* series and presents sample data from the 1980 Census Supplementary Questionnaire For American Indians (Reservations and Historic Areas of Oklahoma) for the United States, Census Regions, Standard Federal Administrative Regions, Divisions, selected States, Identified American Indian Reservations, the Identified Historic Areas of Oklahoma (excluding urbanized areas), and Tribal Governments and selected tribes in the Identified Historic Areas of Oklahoma (excluding urbanized areas).

The abbreviated identification for this report series is PC80-2 (i.e., Population Census, 1980—Volume 2) followed by a number and a letter representing the specific report.

A large portion of the information compiled from the 1980 Census of Population and Housing appears in Volume 1, *Characteristics of the Population*, and *Characteristics of Housing Units*, which focuses on data for the United States, States, standard metropolitan statistical areas (SMSA's), urbanized areas (UA's), counties, places, American Indian reservations, and other geographic areas. Results from the 1980 census also are provided on computer tape files in the form of summary tape files (STF's). The STF's have been designed to provide statistics with greater subject and/or geographic detail than is feasible to publish in printed reports. An extensive amount of data on American Indians, Eskimos, and Aleuts are published in the Volume 1 reports and included on the summary tape files. For a description of the 1980 census data products, see Appendix F, "Publication and Computer Tape Program."

Legal provision for the 1980 census, which was conducted as of April 1, 1980, was made in the Act of Congress of August 31, 1954 (Amended August 1957, December 1975, and October 1976), which codified Title 13, United States Code.

The 1980 Census Supplementary Questionnaire For American Indians (Reservations and Historic Areas of Oklahoma) was developed by the Bureau of the Census in conjunction with the Office of Management and Budget Task Force on Indian Census. In view of the unique living conditions present on many reservations and certain parts of Oklahoma, the 1980 Census Supplementary Questionnaire was designed to provide additional information on the American Indian, Eskimo, and Aleut populations beyond the statistics obtained from the regular 1980 census questionnaires. In April 1978, the Bureau tested the supplementary questionnaire on the Ute Mountain and Southern Ute Reservations in Colorado. The final content and procedures were determined after reviewing the results of this test and recommendations made by the American Indian and Alaska Native community and Federal agencies.

More detailed information on the technical and procedural matters covered in the text of this report can be obtained by writing to the Director, Bureau of the Census, Washington, D.C. 20233.

RELATED SUPPLEMENTARY QUESTIONNAIRE MATERIALS

Plans are to produce a Summary Tape File (STF) providing statistics similar to those published in this report for the American Indian, Eskimo, and Aleut populations. The STF will include greater subject and/or geographic detail than is feasible to provide in the printed report. In addition, plans are to provide a Public-Use Microdata file of the supplementary questionnaire information. The Public-Use Microdata sample is a computerized file containing most population and housing characteristics as shown on a sample of individual supplementary questionnaire records. The file will contain *no* names or addresses, and the geographic identification is sufficiently broad to protect confidentiality. The geography for this file includes total reservations, total Historic Areas of Oklahoma (excluding urbanized areas), and Arizona. Microdata files allow the user to prepare customized tabulations. The preparation of the STF and the Public-Use Microdata file is a cooperative effort of the Census Bureau and the Department of Health and Human Services.

SYMBOLS AND GEOGRAPHIC ABBREVIATIONS

The following symbols and geographic abbreviations may appear in the tables:

- A dash "—" represents zero or a percent which rounds to less than 0.1. Also, a dash "—" is used because the number of supplementary questionnaires for the reservations listed below was insufficient to produce reliable estimates.

Agua Caliente Reservation, Calif.
Hopland Rancheria, Calif.
Kootenai Reservation, Idaho
Mille Lacs Reservation, Minn.
Onondaga Reservation, N.Y.
San Manuel Reservation, Calif.
Skull Valley Reservation, Utah
Torres-Martinez Reservation, Calif.
Tuscarora Reservation, N.Y.
Woodfords Community, Calif.
Other reservation lands in Montana

- Three dots ". . ." mean not applicable, or that the data are being withheld to avoid disclosure of information for individuals. (For further information on disclosure, see the section below on "Suppression of Data for Confidentiality.")

SUPPRESSION OF DATA FOR CONFIDENTIALITY

To maintain the confidentiality promised respondents and required by law, the Bureau of the Census takes precautions that its published data do not disclose information about specific individuals and housing units. To accomplish this the Census Bureau suppresses data for characteristics which are based on a small number of persons and/or housing units in the geographic area. Under certain conditions, both primary and complementary suppression, as defined below, may take place.

The general rules of primary suppression of sample data are as follows: estimates of total population by race are never suppressed; other characteristics, including American Indian tribes, for persons are shown only if there are 30 or more American Indians or 30 or more American Indians, Eskimos, or Aleuts in the geographic area; estimates of total housing units, vacant housing units, year-round units and occupied housing units are never suppressed; characteristics of year-round housing units which are not classified by occupancy status are shown only when there are 10 or more year-round housing units in the geographic area; characteristics of families, households, or occupied housing units are shown only if there are at least 10 occupied housing units within the geographic area; and distributions of data for owners or renters are shown only where the number of owners is at least 10 and the number of renters is also at least 10. These primary suppression criteria are applied independently of one another. The comparable figures for complete count (100-percent) data are 15 or more persons and 5 or more housing units of the specified type.

Population and occupied housing unit characteristics cross-classified by race or tribe (of the householder and householder or spouse) are subject to an additional level of examination. This level requires the 30 person or 10 housing unit criterion be applied individually to each race category.

Finally, complementary suppression is applied to prevent the derivation of primary suppressed data by subtraction.

Population and housing unit counts are shown for the following reservations and rancherias; however, all characteristics for these areas have been suppressed because they have less than 30 American Indians, Eskimos, and Aleuts and less than 10 housing units with an American Indian, Eskimo, or Aleut householder.

Alturas Rancheria, Calif.
Benton Paiute Reservation, Calif.
Big Bend Rancheria, Calif.
Big Lagoon Rancheria, Calif.
Cabazon Reservation, Calif.
Cachil Dehe Rancheria, Calif.
Cedarville Rancheria, Calif.
Cortina Rancheria, Calif.
Coushatta Reservation, La.
Cuyapaipe Reservation, Calif.
Deer Creek Reservation, Minn.
Eastern Pequot Reservation, Conn.
Enterprise Rancheria, Calif.
Golden Hill Reservation, Conn.
Hassanamisco Reservation, Mass.
Jackson Rancheria, Calif.
La Posta Reservation, Calif.
Lookout Rancheria, Calif.
Manzanita Reservation, Calif.
Montgomery Creek Rancheria, Calif.
Ozette Reservation, Wash.
Resighini Rancheria, Calif.
Roaring Creek Rancheria, Calif.
Rumsey Rancheria, Calif.
Sac and Fox Reservation, Kans.-Nebr.
Santa Rosa Reservation, Calif.
Schaghticoke Reservation, Conn.
Sheep Ranch Rancheria, Calif.
Sherwood Valley Rancheria, Calif.
Summit Lake Reservation, Nev.
Tunica-Biloxi Reservation, La.
Western Pequot Reservation, Conn.
XL Ranch Reservation, Calif.

Identified Historic Areas of Oklahoma (Excluding Urbanized Areas): 1980

CORRECTION NOTE

Shown below are correction and/or explanatory statements for selected tables in this report.

Historic Areas of Oklahoma (Excluding Urbanized Areas)

Tables 12 - 20 and 34 - 46

In tables 12 through 20 and 34 through 46, data for persons reporting "Apache" tribe were included in both the Apache and Fort Sill Apache tribal governments in Caddo County. Data for persons reporting "Apache" should have been distributed between the two tribal governments for the tribal government tabulation.

The explanatory note below provides information on the universes for tables 12 through 20 and 34 through 46, which present data for total Historic Areas of Oklahoma (excluding urbanized areas), tribal governments, selected tribes, and counties.

The universes for person characteristics for tables 12 through 20 and 34 through 46, are as follows:

AREA	UNIVERSE
Total historic areas (excluding urbanized areas)	American Indian, Eskimo, and Aleut
Tribal governments	American Indian who reported specified tribe of government
Selected tribes	American Indian who reported specified tribe
Counties	American Indian, Eskimo, and Aleut

The universes for housing unit, household, and family characteristics for tables 15, 18, 19, 20, 35, 37, and 41 through 46 are given in the chart below.

Area	Universe		
	Families with one or more American Indian, Eskimo, or Aleut	American Indian, Eskimo, or Aleut householder or spouse	American Indian, Eskimo, or Aleut householder
Total historic areas, excluding urbanized areas	Families with at least one person who reported American Indian, Eskimo, or Aleut.	Householder or spouse is American Indian, Eskimo, or Aleut.	Householder is American Indian, Eskimo, or Aleut.
Tribal governments	Not applicable.	Householder is American Indian and reported specified tribe of government. OR Householder is non-Indian and has an American Indian spouse with specified tribe of government. OR Householder is American Indian with not reported tribe and has an American Indian spouse with specified tribe of government.	Householder is American Indian and reported specified tribe of government.

Selected tribes	Not applicable.	Householder is American Indian and reported specified tribe. OR Householder is non-Indian and has an American Indian spouse with specified tribe. OR Householder is American Indian with not reported tribe and has an American Indian spouse with specified tribe.	Householder is American Indian and reported specified tribe.
Counties	Families with at least one person who reported American Indian, Eskimo, or Aleut.	Householder or spouse is American Indian, Eskimo, or Aleut.	Householder is American Indian, Eskimo, or Aleut.

ADDITIONAL EXPLANATORY NOTES ABOUT THE DATA

LABOR FORCE STATUS IN 1979

Tables 9 and 18; the percents for "Paid job or in a business or farm" and "Traditional work" are based on persons 16 years and over.

HEALTH SERVICES RECEIVED DURING THE PAST MONTH AND BENEFITS RECEIVED IN 1979

Persons could report in more than one category in the questions on health services received during the past month and on benefits received in 1979. Therefore, for the "health care" and "benefits" items in tables 8, 10, 17, 19, 30, and 45, the sum of the detail may be greater than the totals. For example, persons reported receiving health care from both a "Doctor" and "Community Health Representative" were tabulated in both categories, "Doctor" and "Community Health Representative." Similarly, persons who reported receiving benefits from both "Medicaid or Medicare" and "Food Stamps" were tabulated in both categories "Medicaid or Medicare" and "Food Stamps."

TRADITIONAL OCCUPATIONS

Data in Tables 27 and 40 for traditional occupations also include tribal occupations.

HISTORIC AREAS OF OKLAHOMA (EXCLUDING URBANIZED AREAS) - SELECTED COUNTIES

Tables 34 through 46 show data for selected counties in the historic areas of Oklahoma (excluding urbanized areas). Counties shown are those entirely in the historic areas and with 1,000 or more American Indians, Eskimos, and Aleuts, and those partially in the historic areas and with 500 or more American Indians, Eskimos, and Aleuts. The following counties with less than the specified American Indian, Eskimos and Aleut population were inadvertantly included in the tables: Beckham, Canadian (excluding urbanized portion), Ellis, Kingfisher, and Logan (excluding urbanized portion).

COMPARABILITY OF DATA FROM THE SUPPLEMENTARY QUESTIONNAIRE WITH THE REGULAR SAMPLE QUESTIONNAIRE

As noted in the text, the data on American Indians, Eskimos, or Aleuts from the Supplementary Questionnaire Program may differ from comparable data from the regular (100-percent and sample) questionnaires. Sampling variability as well as nonsampling error account for the differences. A preliminary evaluation shows that for most subjects the supplementary questionnaire data are in relatively close agreement with comparable data from the regular sample questionnaire. However, some substantial differences are noted for a few items such as percent high school graduates, median family income, and median household income for some geographic areas.

The Census Bureau is continuing to evaluate the data on American Indians, Eskimos, and Aleuts from the two sources.

TABLE 1. RACE AND SEX OF PERSONS IN HOUSEHOLDS FOR IDENTIFIED RESERVATIONS: 1980

(INCLUDES POPULATION IN HOUSEHOLDS WITH ONE OR MORE AMERICAN INDIAN, ESKIMO, OR ALEUT PERSONS. DATA ARE ESTIMATES BASED ON A SAMPLE; SEE INTRODUCTION. FOR MEANING OF SYMBOLS, SEE INTRODUCTION. FOR DEFINITION OF TERMS, SEE APPENDIXES A AND B)
